

# JF TEAM POSTCARD

After the death of my wife, I stopped attending church because of the shock I went through said Lukombe Syrus. I have 5 children who have been suffering because of my bad behavior all these last 5 years. I started drinking too much and following ladies for sexual intercourse that ended by being disastrous as became sexually infected with HIV/AIDS. I have been in tough pain and have spent too much money and I am better now. I was thinking of killing myself by the end this coming week. I am happy to have watched the Jesus Film and being prayed for. Pray for me that I may continue growing spiritually and being involved in telling other people about what I went through while I was far from the Lord so that the may avoid the mistake I have made in life.
