

# JF TEAM POSTCARD

During the second night showing the Jesus Film, Mr. Johnson Koa, came to our team confessed that he has traditional torch, he uses to kill. If you met him, said something that was against him, he would enter his house, call your name and light his torch on the wall with your name at which time anywhere you are, you would die. This is his habit but after second night of the Jesus Film, he felt cool torch telling him to speak to the team and give his life to Jesus to be used for the rest of his life. He brought some of his things that we buried and prayed for him.
