

JF TEAM POSTCARD

Mueni is in her early thirties and a resident of this area. She was the 6th wife of a witch doctor her father was also a witch doctor. She is also a widow because her husband was shot by Alishababu. When the husband died she was very much mistreated with her children by the other wives. She has been very miserable. She came to the Jesus film and when the altar call was called she came forward with her children. We prayed for them and they all got saved on that day. One of her children was having severe disease of the ear. The pus was coming out of the ear continuously. As we prayed it stopped. On Sunday they came to the service and she testified that her child was now healed from earache. God has been so good to us. Despite the COVID-19 pandemic God has been doing miracles all through. To God be the glory. Join us in prayer as we pray for Mueni and her children to continue in salvation and also those who received Christ as their Lord and saviour!
