

JF TEAM POSTCARD

God's amazing grace has made a number of people today to be added to the body of Christians. The grace of God is everlasting and continues to change multitudes throughout the world. A woman in this area decided to follow Christ. My name is Bathsheba Kalekeni 39 years old. I have stayed for a long period without a child and have tried to use different types of herbs but experienced only disappointments by receiving false promises and prophecies from the so called prophets and witchdoctors. Having heard that God grants peace and comfort through Jesus Christ, I want God to forgive me, for the evil attempts I have been making for wanting to have a child through witchdoctor's consultations and false prophets. I want the Lord Jesus to come in to my life and take full control. May God help me on how I can become his child and serve him alone" As we led this woman to Christ her face was wet with tears and made a confession to God, during this time we praised God. Pray for God's grace to sustain the already planted churches to fulfill the 2025 vision.
